Geotechnical / Geological Specialist

Description
Invitation for Registration on the Consultant Database

The Urban Development Corporation (UDCORP) under its mandate of encouraging and assisting Local Authorities in planning urban growth and development as well as improving the standards of living of general populace of Zimbabwe through the development of proper housing and related infrastructure seeks the services of a Geotechnical / Geological Specialist to support creation of different spatial development plans.

Responsibilities
The Consultant should have the capacity to deliver the following:

- Planning, directing and conducting investigative work to analyse the likely behaviour of soil and rock when placed under pressure by proposed structures, and designs above and below ground foundations.
- Ensuring all geological data is sourced in an accurate and useful manner
- Performing geotechnical site investigations and analyses.
- Assisting Engineers with producing engineering reports, plans and specifications.
- Preparing of drawings and/or provision of information to draughting staff in order for them to produce plans and drawings.
- Conducting site assessments to determine appropriate location for structures/foundations.

Qualifications
The Consultant must have the following experience and skills:

- Must have knowledge in Geological Software such as Mapinfo, Surpac, and extensive practical knowledge in structural geology.
- At least 5 years experience
- Ensures all geological data is sourced in an accurate and useful manner
